LA LA JOB

~ A DEGREE'S DREAM ~

“Here’s to the fools who dream... of employment”

ACT I: A LOVELY NIGHT

ACT II: THE CITY OF STARS (Are you really shining?)

ACT III: THE FOOLS WHO DREAM (of stability)

FRictional UNEMPLOYMENT

Unemployment from **normal labor turnover**—people entering/leaving the labor force and ongoing job creation/destruction.

★ Our graduate's main experience. Permanent and healthy in dynamic economies.

STRUCTURAL UNEMPLOYMENT

When **technology changes or competition** changes skills needed or job locations.

! Lasts longer—requires retraining/relocation. Skills may become outdated.

THE ECONOMICS BEHIND THE MUSICAL:

*The indicator: UNEMPLOYMENT RATE

*DEFINATION: The percentage of people in the labor force who are actively seeking employment but cannot find a job.

WHY UNEMPLOYMENT IS A PROBLEM

💰 Your Lost Incomes & Production

Economy loses GDP workers could produce. Consumer spending decreases.

🧠 Lost Human Capital

Skills deteriorate. Knowledge outdates. Confidence weakens.

😞 Personal Impact

Financial strain, psychological toll, delayed life milestones.

📊 GDP Connection

When Unemployment-rate > Natural rate:
Real GDP < Potential GDP (negative output gap)

🔑. KEY TAKEAWAY

YOUR DEGREE IS THE SCRIPT, BUT THE UNEMPLOYMENT RATE IS THE DIRECTOR.
Not every scene gets filmed.

UNEMPLOYMENT ISN'T JUST A NUMBER; IT IS THE GAP BETWEEN A DREAMER'S POTENTIAL AND THE ECONOMY'S CURRENT REALITY. WHETHER IT IS THE SEARCH PHASE OF FRICTIONAL UNEMPLOYMENT OR THE SKILL-MISMATCH OF STRUCTURAL UNEMPLOYMENT, IT REPRESENTS A LOSS FOR BOTH THE INDIVIDUAL AND SOCIETY.
